

Child Protection Month Plans 2022

National Child Protection week is commemorated in the country annually to raise awareness of the rights of children as articulated in the Constitution of the Republic of South Africa and Children's Act (Act No. 38 of 2005). The aim is to raise awareness on the need to protect children against abuse, exploitation, neglect and all forms of violence by ensuring that the most vulnerable in our society do not suffer abuse. We do this by not only educating our children about their rights, but also by educating the adults, parents, guardians and teachers who are responsible for protecting those rights.

Consolidated Child protection Plan for the Childline South Africa Network.
